INDEPENDENT LIMITED ASSURANCE REPORT OF THE NON-FINANCIAL INFORMATION INCLUDED IN THE CONSOLIDATED MANAGEMENT REPORT

Translation of a report originally issued in Spanish. In the event of discrepancy, the Spanish-language version prevails

To the Shareholders of Ferrovial, S.A.:

Pursuant to article 49 of the Code of Commerce we have performed a verification, with a limited assurance scope, of the non-financial information for the year ended December 31, 2021, of Ferrovial, S.A. and Subsidiaries (hereinafter, Ferrovial), which is part of the accompanying Consolidated Management Report of Ferrovial.

The content of the Management Report includes additional information to that required by prevailing mercantile regulations in relation to non-financial information that has not been subject to our verification. In this regard, our review has been exclusively limited to the verification of the information shown in the table "Contents of Non-Financial Information Statements" and in the table "GRI Standards Indicators" of the accompanying Management Report.

Responsibility of the Board of Directors

The preparation of the non-financial information included in the Consolidated Management Report of Ferrovial (hereinafter, CMR) and its content is the responsibility of the Board of Directors of Ferrovial, S.A. The non-financial information included in the CMR was prepared in accordance with the content required by prevailing company law and in conformity with the criteria outlined in the *Global Reporting Initiative Sustainability Reporting Standards* (GRI standards) according to comprehensive option, the principles included in Standard AA1000AP (2018) issued by AccountAbility (*Institute of Social and Ethical Accountability*) as well as other criteria described in accordance with that indicated for each subject in the table "Contents of Non-Financial Information Statements" and in the table "GRI Standards Indicators" of the accompanying Management Report.

The Board of Directors are also responsible for the design, implementation and maintenance of such internal control as they determine is necessary to enable the preparation of the non-financial information included in the CMR that is free from material misstatement, whether due to fraud or error.

They are further responsible for defining, implementing, adapting and maintaining the management systems from which the information necessary for the preparation of the non-financial information included in the CMR is obtained.

Our independence and quality control

We have complied with the independence and other Code of Ethics requirements for accounting professionals issued by the International Ethics Standards Board for Accountants (IESBA), which is based on the fundamental principles of integrity, objectivity, professional competence, diligence, confidentiality and professionalism.

Our Firm complies with the International Standard on Quality Control No. 1 and thus maintains a global quality control system that includes documented policies and procedures related to compliance with ethical requirements, professional standards, as well as applicable legal provisions and regulations.

The engagement team consisted of experts in the review of Non-Financial Information and, specifically, in information about economic, social and environmental performance.

Our responsibility

Our responsibility is to express our conclusions in an independent limited assurance report based on the work performed. Our review has been performed in accordance with the requirements established in prevailing International Standard on Assurance Engagements 3000 "Assurance Engagements Other than Audits or Reviews of Historical Financial Information" (ISAE 3000 Revised) issued by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC) and the guidelines for verifying Non-Financial Statement, issued by the Spanish Official Register of Auditors of Accounts (ICJCE) and in accordance with the AA1000AS V3 Standard under a Type 2 moderate assurance engagement.

The procedures carried out in a limited assurance engagement vary in nature and timing and are smaller in scope than reasonable assurance engagements, and therefore, the level of assurance provided is likewise lower.

Our work consisted in requesting information from Management and the various Group units of Ferrovial participating in the preparation of the non-financial information included in the CMR, reviewing the process for gathering and validating the information included in the non-financial information included in the CMR, and applying certain analytical procedures and sampling review tests as described below:

- ▶ Meeting with Ferrovial personnel to know the business model, policies and management approaches applied, the main risks related to these matters and obtain the necessary information for our external review.
- ▶ Analyzing the scope, relevance and integrity of the content included in the non-financial information included in the CMR based on the materiality analysis made by Ferrovial and described in "Reporting Principles" chapter, considering the content required by prevailing mercantile regulations.
- ▶ Analyzing the processes for gathering and validating the data included in the 2021 non-financial information included in the CMR.
- ▶ Reviewing the information on the risks, policies and management approaches applied in relation to the material aspects included in the non-financial information included in the CMR.
- ▶ Checking, through tests, based on a selection of a sample, the information related to the content of the 2021 non-financial information included in the CMR and its correct compilation from the data provided.
- ▶ Obtaining a representation letter from the Board of Directors and Management.

In addition, we reviewed the adequacy of the structure and content in accordance with the principles established in standard AA1000AP (2018), with a moderate level of Type 2 assurance.

Paragraph of emphasis

Regulation (EU) 2020/852 of the European Parliament and the Council, June 18 2020, on the establishment of a framework to facilitate sustainable investments settles the obligation to disclose information on how and to what extent the company's activities are associated with economic activities that are considered environmentally sustainable in relation to climate change mitigation and adaptation objectives for the first time for the financial year 2021, provided that the Statement of Non-Financial Information is published as of January 1 2022. Consequently, comparative information on this matter has not been included in the accompanying Consolidated Management Report. Additionally, information has been included, for which the Board of Directors of Ferrovial, S.A. has chosen to apply the criteria that, in their opinion, best enable compliance with the new obligation and which are defined within the "European Taxonomy" chapter of the accompanying Consolidated Management Report. Our conclusion has not been modified in relation to this matter.

Conclusions

Based on the limited assurance procedures conducted and the evidence obtained, no matter has come to our attention that would cause us to believe that Ferrovial non-financial information included in the Consolidated Management Report for the year ended December 31, 2021 has not been prepared, in all material respects, in accordance with the contents required by prevailing company law and in conformity with the criteria outlined in the Global Reporting Initiative Sustainability Reporting Standards (GRI standards) according to comprehensive option, described as explained for each subject matter in the table "Contents of Non-Financial Information Statements" and in the table "GRI Standards Indicators" of the Management Report.

With regard to the application of the principles established in standard AA1000AP (2018), no matter has come to our attention that would cause us to believe that the Group has not applied the principles of inclusivity, materiality, responsiveness, and impact, as explained under "Reporting Principles".

Recommendations

We have presented to Ferrovial's Management our recommendations regarding areas for improvement in relation to the application of the principles of the AA1000AP (2018) Standard. The most significant recommendations refer to:

- ▶ **Inclusivity:** Ferrovial continues to make progress in identifying and diagnosis through the management model of its stakeholders, including investees, based on its specific management model for these companies. We also recommend Ferrovial continue to update the stakeholders as it determines new strategic priorities and that it likewise persist in processing data and consulting with local communities to enhance management of local stakeholders.
- ▶ **Materiality:** Ferrovial identifies and values material matters that are relevant to its stakeholders, enabling to define its Horizon 24 Strategic Plan focused on the promotion, construction and management of sustainable infrastructures. Considering the ever-changing social and market context, it is recommended to periodically reassess material matters to ensure the inclusion of relevant aspects in the 2030 Sustainability Plan framed in said Strategic Plan.

4

- ▶ **Responsiveness:** Through its 2030 Sustainability Plan, Ferrovial monitors its areas of action and specific objectives for each effective year, aligning itself with the relevant issues of the organization. It is recommended to continue incorporating the expectations of local stakeholders in future years, focusing efforts on monitoring the initiatives that Ferrovial intends to address. On the other hand, and given the complexity of the process of consolidation and reporting of information from a large number of subsidiaries, we recommend continuing to strengthen the internal control systems for non-financial information in order to ensure the quality and integrity of the information reported.
- ▶ **Impact:** Ferrovial's 2030 Sustainability Plan supports the initiatives that are grouped around its six global macro trends, which complement the development of its Horizon 24 Strategic Plan according to its four strategic priorities. We recommend advancing in the measurement and analysis of the long-term value created by Ferrovial, developing a process to evaluate and manage the real and potential impacts of the organization in the different areas in which it has influence, as well as continuing to optimize the methodologies for calculating carbon footprint and water footprint that measure the impact of its activity.

Use and distribution
